FY18 Application

Boards are expected to:

- Build on their FY17 planning to show they have identified the critical needs in the community;
- Present how they are meeting those needs; and

Building on Previous Planning Process

The proposal must demonstrate that a successful planning process allowed the Board to:

- Understand the current conditions of the families in the jurisdiction;
- Evaluate the current service delivery system's capacity to support the healthy growth and development of children and families; and,
- Build community support for the prioritized strategies to fill gaps in services.

FY18 Application Framework

- **Prioritized Result:** How did the Board determine the quality of life conditions you want for the children, adults, and families who live in your community?
- **Prioritized Indicator:** How will the Board measure these conditions, and how is the jurisdiction currently doing?
- **Partners:** Which community partners are committed to working together to address the prioritized result and indicator?
- **Strategies:** What do we know is going to work to turn the curve on this indicator? How do we know it works?
- **Performance Measures:** What measures will we use to answer the questions: How much work was done? How well was the work done? Is anyone better off?

Expanding or Enhancing

- For programs/strategies that are proposed for FY18 that directly impact one or more of the Strategic Goals, the application narrative must clearly describe the linkages between the program/strategy and population to be served. In this instance, the shift to a new funding stream is not necessary and not required to be documented in the application.
- A commitment from another entity to provide needed funding for the program/strategy in subsequent years must be documented by a letter of support from the entity.
